Board of Trade Plans Active Campaign for District

Committees Appointed for Year—Board Commends Work
of Retiring Secretary, W. S. Purvis—A. M. Morrison Re-Elected President

The annual meeting of the Board of Trade, held last Thursday evening, was attended by twenty members. Following the adoption of minutes of previous meetings, and the reading of the financial report by Secretary Purvis, which showed a balance on hand of \$37.26, the election of officers was held, resulting as follows:

Honorary presidents, A. C. Flumerfelt and J. A. Nowell; president, Alex M. Morrison, re-elected by acclamation; vice-president, Jas. M. Allan; secretary-treasurer, H. T. Halliwell; committees—the following to act as chairmen of their respective committees: Publicity, W. S. Purvis; tourist, A. M. Morrison; municipal, H. C. McBurney; industrial, M. W. Cooke; finance, W. L. Rippon; highways, etc., W. J. Burns; park and lake, O. E. S. Whiteside; entertainment, Geo. Kellock.

Mr. Morrison reported on the road between Crow's Nest and Corbin, and as a result of his inquiries the conclusion was reached that the undertaking, to be carried out in a worthy manner, would be too expensive for this board to undertake. On motion it was decided that no further action at the present time be taken in this matter.

Correspondence was read from the Calgary Herald, the Alberta Development Board, and the Mackled Board of Trade relative to the Trans-Canada (Red Trail). The secretary had written to the first-named complaining of being shown as a mere cut-off, with the main trail passing through Calgary. C. S. Hayden, replying for the Calgary Herald, stated it was not the intention of that newspaper to do anything detrimental to this section of the province in regard to tourist traffic, while the Alberta Development Board in their reply suggested that as there was considerable expense involved in preparing the maps complained of, they hoped that when the maps are again prepared, that this route would be given due prominence, and that Coleman would be prepared to bear a share of the cost.

On motion the correspondence was ordered filed.

The question of affiliation with the Associated Chambers of Commerce was discussed, and on motion the secretary was instructed to ascertain the amount of the affiliation fee.

Street repairs were then brought under discussion, and G. Pattinson, the only member of the council present, was asked what the council planned in connection with roadwork. He reported that the council was considering the advisability of joining the department of highways in sharing the cost of repairing the main streets, and that in connection with the streets in the outlying parts of the town, they intended to do as much work this year as finances would permit. He assured the meeting that it was likely that more work of this nature would be carried out this year than had been done in the past few years.

There was considerable discussion with regard to the grading of the road in West Coleman joining the main highway west of town. It was the opinion of the meeting that the grading of the streets as at present was not in the best interests of safety, and Mr. Pattinson was asked to endeavor to have the grade levelled so that the ditches on either side would not be so deep, and thus lessen the possibility of bad accidents occurring at this point.

In regard to town lighting, rumor had it that additional street lighting was contemplated by the town. Upon motion the secretary was instructed to write the council expressing strongly the sympathy of the Board in connection with this project; it being felt that the streets were very inadequately lighted.

Regarding the Red Trail Association, it was moved that the secretary write Mr. A. Baker of the Waterton Road Route Service as to their plans in connection with this organization.

A report was made by H. T. Halliwell on his attendance at the conference of the Southern Alberta Boards of Trade conference in Calgary last November, at which was urged the linking up of all the boards in the province by affiliating with the Canadian Chambers of Commerce. He also gave a report on the coal rate discussion, relative to the movement east of domestic coal at a rate later fixed by the Railway Commission. Other subjects dealt with at the conference were also reported on, and a hearty vote of thanks was given for the interesting manner in which the report was submitted.

In appreciation of the excellent work of W. S. Purvis as secretary of the Board during the past three years, a hearty vote of thanks was given, several members expressing their own personal appreciation of his services, and regret at his decision to resign from the office.

The meeting adjourned at 10:25 p.m., next meeting to be called on instruction from the president.

At the Board of Trade meeting last Thursday a letter was read from Senator Buchanan of Lethbridge expressing his regret at being unable to attend the meeting, at which it had been intended to have the senator as the guest of honor at a banquet.

VIOLIN EXAMINATIONS

AT COLEMAN

At this time of the year many musical students in the West are anxiously waiting for the "Wise Men from the East." Peter B. Kennedy of Toronto will be one of the former when he examines the young musicians presented at the Coleman Centre on July 10 at the residence of Mr. W. J. Harris. Pupils will come from as far east as Passburg and as far west as Natal, and the number of students entered will double last year's entries, thus making it necessary for the examiner to preside for a whole day as compared with a few hours last year. It is hoped that the pupils at Coleman will repeat their performance of last year and maintain their standard of 100 per cent. This year a medal will be awarded to the student receiving the highest marks.

GOVERNOR-GENERAL TO VISIT PEACE RIVER COUNTRY

A week's trip through the Peace River country during July is planned by Viscount and Lady Willingdon. Their excellencies hope to leave Edmonton on their northern trip on July 15, going by train to Peace River, from there by motor to Dunvegan, thence to Hudson's Bay by steamboat up-river to Pouce Coupe, and driving back through the Valhalla district to Grande Prairie, from where they will return by train to Edmonton. It is the intention of the Government, with the co-operation of various organization in the north, to make the excursion into the northland a real event for the Governor-General and his party, and to show them as much as possible of the farming districts where such marked development is taking place this season.

BAND CONCERT PROMISED

If it is possible to secure a suitable hall, the band will give a concert on Sunday evening, July 1, when the test piece they are to play at the Calgary Exhibition and Stampede, entitled "Western World," will be played. The band aims to be deserving of the whole-hearted support of the community, and no doubt they will surprise many at the progress they have made since commencing to practise this spring under the leadership of Bandmaster Fulton.

Harold Stephenson and W. Machin plan on leaving for a visit to England, probably sailing on July 20.

A hail storm on Sunday afternoon followed a very hot morning, which lowered the temperature very rapidly.

PEOPLE WE HAVE MET

ALEX. M. MORRISON

A firm believer in Coleman and always an enthusiastic worker in civic and community enterprises, Mr. Morrison has shown his faith in the town by devoting his energy and capital towards its development. He has served four terms on the council, two as mayor, and for several years has been president of the Board of Trade. He has been a resident here since 1905, and in 1917 commenced the business of the Coleman Garage, Ltd., which has developed in keeping with the progress of the town.

At last Thursday's meeting of the Board of Trade he was again unanimously elected as president, and in accepting office he emphasized the importance and necessity of citizens being imbued with civic pride in order that Coleman should maintain its progress and sound development. "It is up to committees appointed to carry out the work assigned to them," he stated, "if a board is to function effectively."

Personal and Local

All roads will lead to Calgary next week for the annual exhibition and stampede.

H. Snowdon is at his office again, following several weeks' absence on account of sickness.

John Petroski is recovering slowly from injuries received about two weeks ago in the McGillivray mine.

The dates for the biggest carnival in the history of Coleman are July 21-23-24. Further details will be published next week.

Mr. John Shanks, general manager of Nordegg Collieries, came down on Sunday morning for a few days visit with local mining managers.

Miss Catherine Davidson has recovered from an operation from appendicitis, being discharged from the hospital on Sunday.

B. Borden and family have leased the house formerly owned by C. S. Oumette, and are moving in this week.

A letter received from the Rev. A. D. Currie, who is spending a holiday at Parry Siding, B.C., with friends, states that he is feeling considerably better, and that he is enjoying the change and the rest.

Members of the L. O. B. A. and friends of Miss MacKinnon gathered at her home on Friday evening, when a shower was held, a beautiful ring being presented to her by the lodge and many handsome presents by her friends.

William Haysom was elected by a heavy majority as check weighman at the International mine on Wednesday last, the candidates besides himself being Samuel Hadfield and George Duffield. Mr. Haysom has held the position for some years.

Mrs. Dewar entertained at bridge on Saturday evening in honor of Mrs. Smith, Mrs. Muir and Miss Mercer, who are leaving this week for Alexo, Alta., after residing here for a number of years. Mrs. Muir, who is Davidson, former superintendent of McGillivray mine, left for there several weeks ago, where they are permanently located. Mrs. Smith is contemplating an extended holiday tour and will be absent for some time.

TOWN COUNCIL WILL IMPROVE HIGHWAY UNDER SUPERVISION OF GOVT. ENGINEER

Mayor Burns returned on Sunday morning from a week's visit in Edmonton, where he attended the convention of the Highway Engineers. He interviewed officials of the Highway department as to their agreeing to bear fifty per cent of the cost of grading the Red Trail (Trans-Canada Highway) through town, and was assured that arrangements to this effect would be made.

During their stay in the capital the delegates to the convention were entertained by various organizations, which helped to make their visit very enjoyable.

Mayor Burns was appointed to the executive of the Alberta Association of Municipalities to represent the towns in the southern portion of the province.

JOHN KEMMIS ELECTED GRAND SECT OF MASON'S

The community of Pincher Creek extends its congratulations to Mr. John Kemmis, who has been elected Grand Secretary of the Masonic Order for Alberta, and wish him every success in his work. Mr. Kemmis is successor to the late Mr. S. Y. Taylor, and the importance of his office is widely known.

Mr. and Mrs. Kemmis have decided to maintain their home in Pincher Creek for the summer, though Mr. Kemmis will assume his duties shortly in Calgary, where for the winter months he will be joined by Mrs. Kemmis—Pincher Creek Echo.

As a diversion from school routine last Friday afternoon at Central school the classes of Miss McDonald, Miss Milligan, Miss Allan and Miss McKay brought "rats" to school, and held enjoyable little parties in the class rooms, while Miss Haysom's class had a picnic in the park.

"Bud" Clarke tried to raise some young manias, which he discovered when on a fishing trip recently. Two died within a few days of their capture, and the third gave every indication of surviving in captivity. It had become so accustomed to "Bud" that it would run to him as soon as he called, but its earthly career terminated last Saturday evening, when in attempting to escape from a box which had been fixed up as a cage, it met its death. He will make another attempt to capture some for pets.

Some thirty or forty golfers from Pincher Creek visited Pincher Creek on Sunday for a match with the club of that town, but owing to heavy rain the games had to be called off.

The Pincher Creek folks, however, did their best to entertain the visitors during the day and everybody seemed to come home happy. It is expected that Fernie will again send a team down early in July. Pincher Creek has a nice golf course and a fine bunch of golfers—Fernie Free Press.

Mr. and Mrs. Thos. Johnson returned last week from a visit to their sons at Drumheller, and among former Colemanites met Clarence Stevenson, Mr. Low and the Misses Miley and Ralphie Hadfield. A clipping from a recent issue of the Albertan states that Messrs. Low and Stevenson are being congratulated on designing a motor boat which meets the requirements of the Red Deer river, while "made in Drumheller" is another feature which is a source of satisfaction. The boat, named the "Connie," was built for Professor Sternberg, of Ottawa, who is exploring the bad lands of the Red Deer valley on his annual dinosaur hunting expedition.

Will Entertain Postmasters

Frank Graham will attend the Alberta Postmasters' Association convention in Calgary next week, and the visiting postmasters will be entertained by the district superintendent, Calgary post office staff, the Board of Trade and the Robert Simpson Co.

A section of safety deposit boxes have been installed in the vault of the Bank of Commerce for the use of bank customers and others who may desire to rent a box for the safe keeping of valuable papers.

Coleman Rod & Gun Club SPECIAL NOTICE

It is important that members intending to take part in the Club Competition at Lundbreck Falls on Sunday, July 1, notify the Secretary before FRIDAY EVENING, June 29, to enable the Transportation Committee to arrange for cars. Time of departure 8 a.m. Competition closes at 3.30 p.m.

JOHN RUSHTON,
Secretary

DONATIONS TO THE ROD & GUN CLUB, COLEMAN, 1928.

The following prizes have been donated to the club, for which the executive expresses its thanks:

A. Z. Dow	\$5.00
C. Profa, pair dress gloves	3.75
P. Fontani	6.75
Coleman Cafe	3.00
C. Nicholas, pair of combination overalls	3.75
D. Gentile	3.00
Coleman Hardware, telescope rod	3.75
Palm Confectionery, pipe	2.00
S. Janistak	2.00
Gents' Furnishing Store, dress shirt	2.00
Empire Hotel	3.00
George Pattinson, fishing basket	3.25
H. C. McBurney, 12 dry flies	5.00
A. M. Morrison, gasoline	5.00
W. Bell	6.75
Total	\$63.25

Mental inertia is responsible for many of the ills of the world. The man who creates business for himself also provides employment for others. The great majority are content to let others do the planning.

Theatre Notes

Owing to the film being damaged, "Douglas Fairbanks as the Gaucho" was not shown last week end. On Saturday evening in its place was shown "The Dove," with Norma Talmadge playing the title role. "The Gaucho" will be played at an early date as possible, so that Coleman picture fans will have this pleasure in store.

For the coming week-end the stellar feature will be one of the most loveliest, most brilliant pieces of dramatizing in its place was shown "The Dove," with Norma Talmadge playing the title role. "The Gaucho" will be played at an early date as possible, so that Coleman picture fans will have this pleasure in store.

Signs Of A Better Era

The period of prosperity now so generally prevalent throughout Canada and the United States, and the marked rise in industrial activity in all lines all over this continent, and which is being felt to a steadily increasing extent in Great Britain and other European countries, seems to present to some ill-informed minds and agitators an opportunity to once again revive the old "strike" weapon. When times are hard, business depressed, with large numbers of men unemployed, the agitator urges men rejoicing in employment to "strike" has a hard row to hoe, but when business is brisk, the vast majority of men employed, and an increasing demand for labor, the agitator sees his opportunity to make trouble.

Fortunately, both employers and employees have learned from past bitter experiences that industrial warfare does not pay any more than it does between nations; that the victor suffers almost as great damage as does the vanquished; and the general public which after all is the greatest sufferer is now more and more inclined to sternly oppose the calling of a "strike."

Relations between the bosses on the one side and the men on the other have been bettered and become more cordial in recent years through a realization of a truth, which ought to have been recognized long ago, that, in the final analysis, their interests are common. Employers today do not regard their men as mere machines, but as real and active partners in the success of the business in which they are jointly engaged, and the average workman today recognizes that his employer has good problems and difficulties to face in successfully administering and maintaining his business in a highly organized and fiercely competitive world.

Recently an attempt was made to induce all the employees of the Toronto Street Railway system to go out on strike to enforce a series of demands made by them. The strike, if carried out, would have meant a complete stoppage of the public transit system in the city, and an enormous loss to the entire community. The Toronto street railway is municipally owned—that is, it belongs to all the people. The management pointed out that to meet the men's demands would necessitate an increase in fares. This brought the issue right home to every resident, and particularly to all classes of workers in the city who are among the principal users of the cars. Had the system been privately owned, people would probably have felt that any increased expense to meet the men's demands could be met out of profits, and that any increase in fares was unnecessary, but in a municipally-owned system, operated to provide service rather than to accumulate profits, the statement of the management was accepted not as a bluff, and that either increased fares, or operating deficits to be made up out of increased taxes, must result.

So, when the matter of calling a "strike" finally came to a vote of the street railway employees, the men themselves rejected it by a ten to one vote in favor of arbitration, a very healthy indication of sane thinking on the part of the men and of the prevailing trend of public sentiment.

Another Toronto labor incident may be cited as indicating the newer and more reasonable point of view now actuating labor men. Structural steel workers on three of the largest buildings in the city went on strike to compel their employers to establish a closed shop and employ only union men, which would be a reversal of the Company's policy during the last forty years of making no distinction between union and non-union men but treating them all frankly and alike. The steel workers have sought to induce other branches of the building trades to go on strike in sympathy with them, but without success, and even the International Union, it is understood, refused to endorse the attitude of the strikers.

The fact is becoming increasingly evident that in this age the bludgeon methods of war are growing more and more in disfavor, no matter in what direction or cause they may be employed. People are becoming more insistent all the time that causes of dispute, whether between nations, or in the industrial arena, or between individuals, be settled through the orderly processes of law and arbitration, and by trying at each other's throats and engaging in combat in which countless thousands of absolutely innocent persons are made to suffer.

Alberta's Coal Resources

Official Figures Place Total At Over a Billion Tons

An estimate of Alberta's coal resources, made recently by the International Geological congress, places the total at 1,035,629 million tons, according to figures received by the provincial government. This is 14 per cent. of the world's coal supply, 72 per cent. of the British Empire's resources, and 87 per cent. of Canada's resources.

The mines presently operating in Alberta are capable of producing 15,000,000 tons annually, and it has been estimated that if this production were increased 100 times, that the available supply would not be exhausted for 18 centuries.

A Non-Inflammable Fuel

Invention Of Russian Engineer Has Been Successfully Demonstrated

Fire prevention in the aeroplane is still a problem of the greatest importance. One solution lies in the production of a non-inflammable fuel which can be utilized in the present conventional type of aircraft engine. A Russian engineer, Mr. Malozemine, is reported to have achieved success in this direction. By a secret chemical process he is able to convert heavy mineral and vegetable oils into a light liquid fuel which is non-inflammable outside the engine. It can be used in the ordinary carburetor-type internal-combustion engine and will deliver more power for a given weight. These claims are said to have been demonstrated by a variety of official tests.

First Surgeon—"Are you going to operate on this patient?"

Second Surgeon—"I'm afraid to; there's something the matter with him."

Grapes grown in Holland and Belgium can be sent by water to London at a much lower cost than similar fruit grown in the south of England can travel by rail.

The physical and mechanical properties of Sitka spruce and its availability in long straight-grained pieces have made it the most valuable timber for aeroplane construction.

An enemy knocks a man down, then a friend proceeds to kick him.

Obtains Second-Place

Blind Student At Brantford Successful In Essay Contest

Obtaining second place among 20,000 contestants all over the Dominion in a recent essay contest, a blind boy student at Ontario School for the Blind, Brantford, will receive congratulations of the acting minister of education, Hon. W. H. Price, conveyed by Dr. A. H. U. Colquhoun, deputy minister, to Suplt. Race, Ernest Philpott, writing upon the subject, "Laura Secord, the Woman Who Made Confederation Possible," attained the highest place, but in this large field, and, in addition, three other pupils of the school received special prizes.

RHEUMATIC PAINS DUE TO THIN BLOOD

Relief Comes Through the Use Of Dr. Williams' Pink Pills

The most a rheumatic sufferer can hope for in rubbing something on the swollen, aching joints is a little relief, and all the while the trouble is becoming more firmly rooted. It is now known that rheumatism is due to thin and watery blood, that the trouble goes on the blood becoming thin in the blood, that is why Dr. Williams' Pink Pills have proved so beneficial when taken for a long time. They make new, rich blood which expels the poisonous acid and rheumatism disappears.

There are thousands of former rheumatic sufferers in Canada, now well and strong, who thank Dr. Williams' Pink Pills that they are now free from the aches and pains of this dreaded trouble. One of these Mrs. F. Tait, McKellar, Ontario, who says: "I am one of the willing ones to tell you of the great benefits I received from the use of Dr. Williams' Pink Pills. After using it for seven weeks suffering untold agony with inflammatory rheumatism, relief finally came through the use of this fine medicine. I could not move in bed only as they lifted me, and I could only sleep with my arms raised. The medical treatment I was taking seemed of no avail. Then I was advised to try Dr. Williams' Pink Pills, and soon I began to get relief. After taking six or eight boxes I have had no return of the trouble since. I may add that I recommended the pills to two of my friends who were suffering with rheumatism and the pills were equally effective in both cases."

Try Dr. Williams' Pink Pills for anemia, rheumatism, neuritis, indigestion or nervousness. Take them as a tonic if you are not in the best physical condition and cultivate a resistance that will keep you well and strong. You can get these pills through any medicine dealer or by mail at 50c a box from Dr. J. C. Williams' Medicine Co., Brockville, Ont.

In England and Scandinavia countries traffic keeps to the left; in most other European countries, to the right, according to the National Automobile Club.

A primitive people have been discovered of four hundred miles south of the Mediterranean, living in holes in the ground.

Let Gum-Dipped Tires Save You Money

Only in Firestone tires can you get the advantages of the exclusive Firestone Gum-Dipping process by which every fibre of every cord is insulated with rubber which prevents internal heat and friction—the greatest enemy of tire life.

This is the reason why Firestone tires give thousands of extra miles. They cost no more than ordinary tires. See the nearest Firestone Dealer.

RED CROSS AS FAIRY GODMOTHER

A Radio Tale Of The Far North Of Alberta

In the far north of Alberta stands a little house in the woods, looking like Wendy's House in the Never-never Land for Lost Boys. Here dwelt a Scottish settler, his wife and family, and with them the grandparents and their family. Times had gone hard with the pioneers from the Land of the Heather. Crops had failed, and the people of Canada, seemed intent, even to their brave Scottish blood.

Food was none too plentiful, clothing was scanty and bedding bare. The young wife, already a mother of several bony looking babies, was expecting to present to the land of her adoption that greatest gift of all a new Canadian.

Prospects looked bad to this Scottish family—friends were far away over the seas and the hills of their native land. To whom could they turn in their time of trouble?

Neighbors were few and far between, but kindly and considerate as all Westerners are. In one German home there was a Radio, a new toy that was proving not a plaything but an ever present friend. It gave the people of the day to the people of the far northland. Music was theirs, and song and speech. Then one day there came a new feature, a voice telling of the great Red Cross and how it was doing to build a better and healthier Canada.

Suddenly the blue-eyed German said, "Mitgating suffering," and the voice, "wherever found." Other phrases came clearly over. "Helping the Sufferer, cheering the sorrowing, sending relief, caring for Mothers and Babies." Then the smile grew wider, for here at their own doors was just such a case as the Red Cross was doing to cure. The Golden Rule was put in action at once and through the neighborhood of a German friend a new Scottish-Canadian was born under the Red Cross flag.

Golf Week At Jasper Park

Events At Jasper Park Lodge Golf Course, Jasper, Alta., September 8th to 15th Inclusive

Saturday, Sept. 8th (Morning)—Handicap match against pair, eighteen holes. Players allowed three-quarters of medal handicap. Entrants may arrange their pairs. (Afternoon)—Ladies' handicap. Match against pair.

Sunday, Sept. 9th (Morning)—Inter-Province and State competition. Teams of six players from province on stroke play. (Afternoon)—Mixed foursome matches against four teams. (Afternoon)—Bogey, 50 per cent. of combined handicaps.

Tuesday, Sept. 11th (Morning)—Jasper Park Lodge Silver Trophy. Pole Trophy. Qualifying round eighteen holes. Gold medal for best qualifying score. Silver Trophy. Pole Trophy to winner of first sixteen. Suitable trophies to winner to second and other sixteen. (Afternoon)—Ladies' qualifying round.

Wednesday, Sept. 12th (Morning)—Jasper Totem Pole Trophy. First round, eighteen holes; all flights. (Afternoon)—Ladies' first round; all flights.

Thursday, Sept. 13th (Morning)—Jasper Totem Pole Trophy. Second round, eighteen holes; all flights. (Afternoon)—Mixed foursomes. Medal round.

Friday, Sept. 14th (Morning)—Jasper Totem Pole Trophy. Final; all flights. Men and ladies. (Afternoon)—Mixed foursomes. Match against C.D.G. of combined handicap.

Saturday, Sept. 15th (Morning)—Jasper Totem Pole Trophy. Final; all flights. (Afternoon)—Ladies' qualifying competition. 5 p.m.—Prize giving.

The winner of the first 16 in the Totem Pole Trophy competition will receive a reduced facsimile of the trophy, which will be his permanent possession. The trophy itself upon the giving of bond, may be held for a year by the club from which the winner enters.

Send Beavers To Scotland

Canada has donated a pair of live beavers to the Zoological Society of Scotland. These little animals, captured and conditioned in Jasper National Park, were transported to Montreal and placed aboard the S.S. Cairnair. Their destination is the Zoological Gardens at Edinburgh.

Wise and experienced mothers know that their children are troubled with worms and lose no time in applying Minard's Worm Powders, a safe and effective vermifuge. It is absolutely in clearing the system of worms and restoring those healthy conditions without which there can be no comfort for the child, or hope of robust growth. It is a most trustworthy worm exterminator.

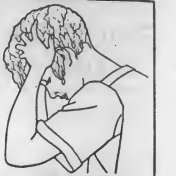

The number of persons employed in road construction in Canada in 1926 reached a total of 26,071, was greater than in any of the past seven years.

For Rheumatism use Minard's Liniment.

Care For Your Hair With Cuticura Soap

And Cuticura Ointment. Before shampooing anoint the scalp with Cuticura Ointment, letting it remain on over night when possible. Then shampoo with a suds of Cuticura Soap and warm water. Rinse thoroughly. A clean, healthy scalp means good hair.

See Free Book at Address: Canadian Distributors Ltd., Montreal. Free, Soap Box, Ointment and scalp brush, Cuticura Shaving Stick 25c.

Seventh British Dominion

Palestine In Line For This Position Says Jewish Leader

That Palestine would eventually become a seventh British Dominion was the prediction made by Dr. Schnary Levin, Jewish leader, who opened the United Palestine Appeal for Western Canada recently.

"Great Britain is in Palestine to stay," declared Dr. Levin. "The mandate will only be withdrawn when the Jewish nation shall have established itself as one of the commonwealths of British nations. Great Britain needs Palestine as the key-stone country in the Near East and as a guardian state of the Suez Canal. In fact, she needs the Jews fully as much as they need her," he asserted.

Dr. Levin reported that the crisis which Palestine had recently undergone was almost over. Jewish settlers were making a striking success in agriculture. Oranges produced on Jewish farms were obtaining 20 per cent. higher prices than those from other countries.

Wretched From Asthma. Strength of body and vigor of mind are inevitably impaired by the visitations of asthma. Who can live under the cloud of recurring attacks and keep body and mind at their full efficiency? Dr. J. D. Kellogg's Asthma Remedy dispels the cloud by removing the cause. It does relieve. It does restore the sufferer to normal bodily trim and mental happiness.

A Land Of Farm Owners

Western Canada is a land of farm owners, according to census revelations. In Manitoba more than 81 per cent. of occupied farms are inhabited by their owners. In Saskatchewan over 77 per cent. and in Alberta over 75 per cent.

Soft corners are difficult to eradicate, but Holloway's Corn Remover will draw them out painlessly.

A street car goes much faster when you are running to catch it than after you have caught it.

Nail GYPROC right over Old Walls

How many rooms in your home have walls that are cracked and faded? Make them "good as new" by nailing GYPROC right over the old, unsightly wallpaper. When you've decorated with Albastone your home will be as attractive and comfortable as any home can be.

Use Gyproc for partitioning off extra rooms, renovating attics and basements, and making grain bins, stables and other farm buildings fire-safe and vermin-proof. You can put it up yourself—easily, quickly and at a substantial saving.

Gyproc Joint Filler applied at all the joints insures a perfectly smooth, flat surface that will take any decoration.

GYPROC Advantages for Farm Buildings

- Easy to use.
- Low cost.
- Workable as lumber.
- Constant warm, bold, crack, shrink or burn.
- Takes any decoration.
- Resists heat and cold.
- Vermine proof.
- Eliminates repairs.
- Ideal for lining garages, poultry houses, barns, grain bins, stables, and other farm buildings.
- Especially suitable for converting attics and basements into extra rooms.

EXPECT RETURN OF RESOURCES TO COME SOON

Ottawa.—There is every prospect that the present year will see important developments in the financial relations between the Dominion and all the provinces as affecting the subsidies which are annually granted. The matter, it is known, has been under consideration already and will be further considered when, during the summer months, negotiations occur with the western provinces respecting the return of their natural resources.

Similarly, the subject was a most important feature of the agenda of the Dominion-wide conference last fall.

It is understood that the Dominion government is anxious to have a specific delimitation of its spheres and those of the provinces and to avoid overlapping even to the extent of federal subventions of local works. The grants for highway improvement are not being renewed while the aid to technical education is also lapsing.

Saskatchewan's public lands have been so extensively alienated that it is likely to claim in addition to the return of what remains of its domain the full subsidy of \$1,125,000 per year to which it was entitled when it has a population of 800,000.

For such a concession by the Dominion government the outlook is not unfavorable.

Will Aid Canadian Ports

Grain Commissioners Promise Support To Vancouver and Other Ports

Vancouver.—The Board of Grain Commissioners of Canada, will exert every effort to aid the port of Vancouver, and keep Canadian grain moving over Canadian railways and through Canadian ports. Vancouver has in its few years of grain experience developed the grain handling facilities to a science and has proven capable of handling any quantity turned Westward.

These sentiments, together with a note of warning that United States ports and transportation interests looked with eager eyes on the grain crop of Canada, were expressed by Leslie H. Boyd, chairman of the Dominion Board of Grain Commissioners, here. The occasion was the banquet celebration of the 80,000,000 bushel of grain given by the Vancouver merchants' exchange. More than a hundred grain and shipping men attended, the guests including, besides Mr. Boyd, James Robinson, and Matthew Snow, vice Secretary Rathbone of the Board of Grain Commissioners.

Col. R. D. Williams, president of the Vancouver Merchants' Exchange was chairman and in a speech to the 80,000,000 bushel gave a resume of the history of the local trade. "I am not given to prediction but I feel quite sure that Vancouver will pass the 120,000,000 bushel mark during the 1928-29 season," declared F. R. McD. Russell, chairman of the Vancouver harbor board.

Given Command In India

General Chetwode Appointed Chief Of General Staff

London.—General Sir Philip Chetwode, member of the army council, has been appointed chief of the general staff in India. He succeeds Lieut.-Gen. Sir A. Sken, who had served under the commander-in-chief, Field Marshal Sir W. R. Birdwood, since 1924.

Gen. Chetwode was the author of the military plan by which Field Marshal Sir Edmund Allenby pursued the offensive in Palestine during the war. Up to last year Gen. Chetwode was commander-in-chief of the Aldershot command. He is 59 years old and served throughout the war.

Public Schools To Teach Piano
Port Arthur, Ont.—Pupils at the public schools will be given the opportunity, at the opening of the fall term, to take piano lessons as part of the school curriculum, it has been decided by the Board of Education. The Canadian Bureau for the Advancement of Music being authorized to make the necessary arrangements.

Memorial To Col. Miller
Lethbridge, Alta.—Plans are progressing rapidly for the unveiling here, July 16, of the memorial cairn in honor of Nick Sheran, Alberta's first coal producer, who in 1872 opened out the first mine on the banks of Belly River.

W. N. U. 1738

Tragedy In Belgrade

Two Members Of Serbian Parliament Killed By Radical Deputy Belgrade, Yugo-Slavia.—Injured by frequent interruption and the refusal of the opposition to withdraw insulting words, Punicia Raditch, Radical deputy, drew a revolver during a session of the national assembly and fired all six rounds into the group of opposition members. Paul Raditch, nephew of Stefan Raditch, the peasant leader, was killed; Stefan Raditch himself seriously wounded. The Croat deputy, Dr. Banastich, was so gravely wounded that he died on his way to the hospital.

Dr. Pernar and two other deputies, Grandja and Jelatchik, also received bullet wounds of a dangerous nature.

This was the culmination of fierce controversies and hand-to-hand fights which have recently taken place in the Yugo-Slav parliament. The crime is considered the most terrible since the memorable assassination of King Alexander and Queen Draga, just 29 days ago this month. It has thrown the whole of Yugo-Slavia into a ferment of excitement.

Parliament had scarcely opened this morning when the opposition, led by Stefan Raditch, began its obstructionist tactics against the government's legislation in the form of which is ratification of the Nettune convention with Italy.

At the height of the angry debate Stefan Raditch, turning to the government benches and shaking his finger, shouted: "You are not men; you are swine!"

Privy Council Ruling Important To Dominions

Judgment Rendered In Regard To Writ Of Habeas Corpus

London.—A judgment of grave constitutional importance to His Majesty's subjects in Britain and the overseas Dominions has been rendered by the judicial committee of the Privy Council on an appeal from Nigeria.

In effect, Their Lordships decided that although by the Judiciary Act, various courts have been combined into one high court, each judge of that court still has jurisdiction to entertain an application for writ of habeas corpus either in term, time or vacation, and he is bound to hear and determine such application on its merits, notwithstanding any previous judicial findings.

This principle must apply to the Supreme Court of Nigeria, they said in allowing the appeal of Eshugbayi Eleko, native chief, from a decision of the Nigerian Supreme Court which had found that Mr. Justice Tew, of Nigeria, had no jurisdiction to entertain Eshugbayi's motion for a writ of habeas corpus.

Tribute For Pilot

Credit For Latest Atlantic Flight Given To Stultz

London.—Talking to London's assembled newspaper men recently, Miss Earhart declared firmly and emphatically "that during her brief flight in England she did not want to be the subject of 'hero worship'."

"I have done nothing to merit it," she said.

It is because I am a woman that I have been forced into the spotlight. The credit for the success of the flight is due to Stultz. He controlled the plane practically throughout and was just splendid."

'Hints' With Cruisers
Warsaw.—The Government has ordered three light cruisers to anchor in the mouth of the Vistula as a gesture to Danzig that Poland will brook no interference with her development of merchant marine. This action followed recent difficulties with Danzig Port and Customs authorities, who refused to allow several Polish freighters docking or anchoring facilities at Danzig piers. Danzigers protest that the ships are a menace, and constitute a danger to the safety of the city.

Will Make World Tour
Minneapolis.—James W. Davidson, author, explorer and diplomat, a resident of Calgary, Alta., has accepted appointment as special representative of International Rotary for a tour around the world to visit clubs already organized in some countries and survey other countries not yet in Rotary.

Attending Authors' Convention
Toronto.—A contingent of Toronto members of the Authors' Association will attend the annual convention in Calgary which opens July 4, including Dr. Charles G. D. Roberts, the National president E. M. Hardy, the National secretary and J. M. Elson, treasurer.

Had Narrow Escape

Window Cleaner Clings To Sill On Third Story Until Rescued Winnipeg.—Clinging desperately with his fingers to a window sill on the third story of the Grain Exchange building here, Steve Habusa miraculously saved himself from death. He was cleaning windows and was adjusting his safety belt when the heavy door of his scaffold fell, knocking him off the space. As he plunged downward he caught the sill just before the scaffold crashed down on his fingers, crushing them badly. He held on with all his strength until his plight was discovered and he was rescued.

Caught In Snowstorm

Colorado Tourists Marooned At Summit Of Pike's Peak

Colorado Springs, Colo.—Twenty-five tourists have been marooned at the summit of Pike's Peak after being marooned there for 24 hours by the worst spring snowstorm to visit this region in several years.

Several children were in the group, which had been isolated by great heaps of snow which covered the upper regions of the 14,000-foot mountain. Word of their plight was brought here when telegraph communications were restored and a snow plow fought through the drifts and reached the stranded tourists.

EFFORTS MADE TO PUSH WORK ON H. B. ROAD

Ottawa.—Work continues to be pushed on the Hudson Bay Railway, with considerable grading in progress. Whether the road will be pushed by the end of 1928, as anticipated, cannot yet be said, but all efforts are being made during the season to finish those parts that can be worked on.

The northward course of the road occurs at Mileage 356 (from The Pas), a few miles northeast of Mett Rapids. From there the railway will run almost due north to Fort Churchill, avoiding contact with Fort Nelson altogether. Churchill is at Mileage 512, which would indicate that 156 miles of steel still remain to be laid.

With regard to the Fort Churchill itself, officials of the department of railways recall that when Hon. Mr. Dunning was asked as to his policy respecting real estate speculation there, he declared that the government had expropriated all lands on the east side of the harbor, where the dock works will be constructed. Compensation for this will be due in the exchequer court in due time.

Most of the land for the townsite of Churchill was the property of a settler named Bosch, who established himself there and homesteaded many years ago. He is now dead, but his heirs are scattered throughout Canada and they will be recompensed for the expropriation.

The loss of the dredge of the Labrador coast last year may delay the harbor works for some time. Throughout the winter a great deal of material was salvaged at Port Nelson and forwarded to Churchill by motor-tractor; other material has been floated up the bay.

An aeroplane base will be established within a few weeks as soon as the ice conditions in the immediate vicinity of Fort Churchill have become such as to enable the department of national defence 'planes now at Cormorant Lake, north of The Pas, to make the trip to the port.

WILL GIVE CANADA HELPING HAND

Photograph shows a happy group of young women who arrived in this country recently for domestic work, positions having been assured them before leaving the Old Country.

They arrived in Montreal after a pleasant voyage on the Canadian Pacific Steamship "Melita," with the ship's conductors, who are seen in the centre of the group, and who advised them that it was better to work for a salary and be independent than just to work at keeping house.

B.C. PROVINCIAL ELECTIONS

John H. MacLean, of British Columbia, who will lead the Liberal party in a test of strength in July, when a general election will be held. Premier MacLean is a native of Prince Edward Island, succeeded to the chairmanship of the provincial Liberal party on the death of H. H. Join Oliver last year.

Scottish Youths For Canada

Inspector Comes To Dominion To Study Conditions Here Toronto.—James M. Maltman is inspector of the Glasgow, Scotland, parish council, interested in migration problems affecting the old country has brought him to Canada for the purpose of studying conditions as they have to do with youths who come out under the land settlement act.

"There are 8,000 people in our parish receiving relief," he said. "We quite appreciate that migration to Canada is not a solution to our problem, but we do feel that many Scotch lads, after they are handicapped, tested and trained in farm work, may make good settlers for Canada."

"We are most particular as to what type of boy we train and never accept those who have been in a reformatory or are of doubtful character." He brought out with him 30 youths who are already placed on farms in the Dominion.

Storm Takes Heavy Toll

Tornadoes Cause Death and Destruction In Northwestern States Kansas City, Mo.—Three more deaths and millions of dollars of property damage were added to the toll taken by storms in the Southwest.

Tornadoes again visited communities in Oklahoma, and high winds, floods and hail scattered destruction in sections of Kansas and Missouri.

The three deaths reported recently, brought the total dead to 12 and Canada, thus a score of names were added to the long list of injured.

The Red Cross reported 2,200 persons homeless, many of them destitute.

New Settlers Coming

London.—The families of 30 soldiers will be settled in Canada next spring under the new scheme of land settlement for military and naval families, it has been announced. The age of the head of the family will not exceed 40 years except in particular circumstances where the family is regarded as very desirable.

The S-55 was manned by Maddalena, Lieut. Cagna as co-pilot, with radio operator Abell and Mechanic Sergeant Rampini, who had come with the plane on its flight from Italy.

Trade Treaty Signed

Vienna, Austria.—A treaty of amity and trade between the United States and Austria has been signed by Chancellor Seipel and United States Ambassador Albert Henry Wausborn.

All Europe, moved for days by the dramatic flight of Nobile in hearing and seeing relief 'planes overhead but being unable to give them assistance, tonight was anxiously waiting for word from Amundsen.

Captain H. Riser-Larsen returned from his fourth reconnoitering trip over the ice without having seen anything of Nobile or the other two parties of the Italia's crew.

Must Make Restitution

Chicago Mayor and Three Others Owe \$1,732,270 To City Treasury Chicago, Ill.—Mayor William Hale Thompson, Michael J. Flaherty, George E. Hendon and Frederick B. Corbin, public administrator and three real estate experts, were found in circuit court to have conspired together in hiring the real estate men to do special work for the last Thompson administration at a cost to the city of \$1,732,270. Judge Pugo Friend ordered the defendants to make restitution of that sum to the city treasury.

The court, terminating the two year old suit, found the conspiracy had a two-fold purpose, "financing the political activities of the Thompson administration and for the private benefit of the members of the conspiracy."

Says Navy Best Defence

Preserves Unity Of Empire Declares President Of League

Saint John, N.B.—Treaties and pacts could never take the place of the "sure shield"—the navy—declared President Sam Harris, Toronto, at the annual meeting of the Navy League here. The unity of the Empire, he said, depended on the naval defence. He asserted Canada should pay a fair share towards protection of its overseas trade.

The session was taken up with a presentation of the financial statement of the organization, which showed the League with highly satisfactory resources. Endowment fund securities amounted to \$455,000. Surplus in the general fund, December 31, 1927, was \$19,721.53, it was reported.

Lynching Is Condemned

Population Of Texas City Is Stirred Over Outrage

Houston, Texas.—Stirred by the first lynching here in 50 years, municipal county and state officials joined in an intensive search for eight unmasked white men who took Robert Powell, 24-year-old negro slayer, from a hospital cot and hanged him from a bridge.

The fact that the lynching took place while the national political spotlight is turned on the city caused officials particular concern and quick steps were taken in an effort to fix responsibility.

An appropriation of \$10,000 was voted by the city council for an investigation by a committee of six, two members of which are negroes.

NOBLE PARTY RECEIVE RELIEF AFTER LONG WAIT

King's Bay, Spitzbergen.—General Umberto Nobile and five of the crew of the lost dirigible Italia were found on an ice floe by Major Maddalena, Italian aviator. He dropped them guns, ammunition, food and cigars.

While the casuways dived joyfully about their desolate encampment, Maddalena was unable to make a landing.

This first relief for the Italian explorers came twenty-six days after their dirigible, returning from a flight over the North Pole and weighted with ice, suddenly descended, smashed the gondola in which Nobile and eight of his crew were riding, and carried the remainder in the unmanageable balloon northward before a gale.

The S-35, a huge seaplane, was sent from Italy by the Italian Government in the belief that its wide cruising radius would be more useful in the search than the smaller seaplanes furnished by the Swedish and Norwegian governments.

The S-35 was manned by Maddalena, Lieut. Cagna as co-pilot, with radio operator Abell and Mechanic Sergeant Rampini, who had come with the plane on its flight from Italy.

All Europe, moved for days by the dramatic flight of Nobile in hearing and seeing relief 'planes overhead but being unable to give them assistance, tonight was anxiously waiting for word from Amundsen.

Larsen said the radius of flight of his machine was too small and suggested an icebreaker be sent to Norway to meet the three parties of Nobile's crew who left him in an attempt to walk to the mainland.

The rescue ship Braganza is unable to advance further toward the east because of packed ice.

BRITISH PRESTIGE IS MAINTAINED

Minneapolis.—England not only has maintained her prestige among nations, but will yet become mightier, Sir Donald MacLean, member of the coalition cabinet and former Liberal leader in the House of Commons, told delegates from the British Empire to the International Rotary Convention here.

Speaking before a British Empire dinner, Sir Donald told his countrymen that England in conjunction with the United States and Canada could make the future destiny of the world one worthy of Christian civilization.

He maintained England made a remarkable recovery from her ills and he defended the "dole" system.

"It is an entire mistake to suppose that the best days of the old country are over," Sir Donald said. "On the contrary, the people who lost eight hundred thousand men in the Great War, who brought the pound sterling to look the dollar square in the face, who restored the gold standard and brought her general credit to a status almost equal to pre-war days, are people who are confident and efficient."

Sir Donald said he was interested in studying the erroneous impression in the United States of the "dole" system. This was a misnomer he said, as unemployment pay came out of the national system of insurance workmen alike contributed to it to which the state, employer and "When the worker drew his unemployment pay it was no charitable 'dole' but a sum which he earned honorably."

May Be Lost In North

Fear Entertained For Missing Trapper In Northern Alberta

Edmonton, Alta.—The hazards faced by the men who go into the northland in quest of furs is once again exemplified by reports from northern detachments of the Alberta Provincial Police reaching Edmonton headquarters.

A telegram received from Constable Baynes of Fort Fitzgerald, says that fears have been expressed for the safety of Walter Reamer, a trapper from the northernmost post in Alberta. The trapper is now long overdue, and a party headed by the constable are on the trail in search of the missing man.

In his lonely shack on the Athabasca river, 70 miles down river from the town of Athabasca, John Wickstrom, 70, old-time trapper, was found dead in his bed. It is thought that he peacefully passed away in his sleep.

Planning Westward Flight

Trip Not Yet Properly Accomplished Says Harry Lyons

Sydney, N.S.W.—Harry W. Lyon, the American navigator of the trans-Pacific plane "Southern Cross," announced that when he flew his fellow countryman, James W. Warner, the plane's radio operator, returned to the United States, they would prepare for a flight from Ireland to America. He added that they would invite Captain Charles Kingsford-Smith and Charles Ulm, the Australian pilots, to participate in it.

Lyon contended that the westward crossing of the Atlantic had not yet been properly accomplished.

Will Visit Winnipeg

Winnipeg, Man.—Winnipeg will be honored by a visit from Lord and Lady Willington, Saturday, July 7, when his Excellency has consented to formally open the Norse celebration in River Park, according to information received by J. S. McDiarmid, M.P., who has been in communication with Rideau Hall.

Used New Route

Ottawa.—A radio greeting from Hon. James O'Grady, Governor of the Island of St. Helena, was awarded the Trudeau medal, most coveted prize offered to scientists fighting tuberculosis. The award was announced at the convention here of the National Tuberculosis Association.

Was Coveted Medal

Portland, Ore.—Sir Robert Phillips, of Birmingham, president of the British Medical Society, was awarded the Trudeau medal, most coveted prize offered to scientists fighting tuberculosis. The award was announced at the convention here of the National Tuberculosis Association.

Why the Sympathy?

An amusing incident at the Board of Trade meeting was the motion of one member that a letter of sympathy be sent to the town council in their efforts to provide better street lighting in the business area. Was he "pulling the leg" of the council? Even at the risk of being charged with repetition, The Journal makes bold to discuss the matter again, for additional lights on the main street are badly needed. People become accustomed to things as they are, therefore do not realize that street lights are necessary, except if they are the victims of an accident because of poor lighting. More to the point would it have been if the board were to commend the council in its efforts and to keep prodding away until this much needed improvement is installed. As a main street of the second largest town in the province it is not anything to be proud of. Coleman has grown beyond the status of a mining camp, and should wake up to the fact.

Still there are quite a number of business men who do not realize that a Board of Trade is for their benefit, judging by the absentees from the meeting on Thursday last. It is worthy of note that there was a member present who attended meetings of the board twenty years ago, viz., Mr. O.E.S. Whiteside, who was made a member in May, 1908.

It is of interest to read the history and minutes of the Board. April 14, 1904, is the date of the first recorded meeting, before the province of Alberta was inaugurated, the seat of territorial government being at that time in Regina. The activities of the board of those days stand out as highly creditable in contrast with the present, for one can envision the efforts of those who twenty-four years ago were laying the foundations of a town under greater difficulties than are experienced now. The minutes demonstrate that there was plenty of work for a board and a very interesting story could be written of the board's activities in those days. Further reference will be made in future issues to those days and the pioneers of the town.

It might help to re-awaken civic pride in the hearts of those who are so engrossed on the details of their own business affairs that they lose sight of the bigger things which can be accomplished by co-operative effort.

Summer Vacations

School teachers and pupils this week cast aside their lessons and studies for two months and plan on how the holidays will be spent. Parents in many cases plan on how to keep the children out of mischief, which is quite a problem. Not everyone is so fortunate as to enjoy a two months vacation, yet in the mountains people are more fortunate than the prairie dweller in this respect. The scenic beauties of this district give pleasure at any time of the year, and though to most people a change of environment is desirable and has its benefits, yet those who are not able to take a trip of any distance or an automobile tour may plan enjoyable outings in the immediate district any fine day during the summer season. By relaxing from the everyday labors and cares, and just concentrating on getting all the enjoyment one can from their surroundings, will give no small degree of pleasure, and the beauties of Nature so bountifully in evidence here are free to all. People from the prairies travel over 500 miles to enjoy a brief stay.

As a Man Thinketh

If you want to be prosperous, think prosperity, talk prosperity, act prosperity. Live like the king you are. Be generous; don't be afraid to give. Spend freely, money in circulation helps everybody. Money hoarded helps nobody. John Smith owed his grocer ten dollars and paid it. The grocer owed his tailor ten dollars and paid him with John Smith's ten dollars. The tailor owed ten dollars to the butcher, who owed John Smith ten dollars. So when the tailor paid the butcher, the butcher paid John Smith, and everybody was paid and prosperous. Get the idea of prosperity in your mind and you will soon have the reality of prosperity on your affairs.—Exchange.

Show the band boys you are behind them in their efforts to win the competition at Calgary exhibition by attending the concert on Sunday evening in the opera house at 8.30. They are doing their part in helping to advertise Coleman to the rest of the province.

"Prince Carol deeply grieved," states a news headline. The average man has the opinion that he is a mighty poor specimen of humanity. Any man who makes the statements attributed to him in a news despatch must be a moral degenerate.

If you have something really worth while to say, it only takes a very short time.

Girls Camp—Lee Lake

There are only a few more days in which to register for the C.G.I.T. district camp. Definite word has been received that the camp director will be Miss Winifred Gilhooly, an experienced camp worker. She specializes in pageantry and dramatics in addition to taking oversight of the regular program.

Every girl who went last year is a confirmed camper. There will be girls from all the Pass towns. At the moment the registration is from Hillcrest almost equal those from Coleman. Extra tents are arranged for and there will be room for at least fifty girls. The cost of the eight days holiday is \$5.00 with 50c registration.

A tourist party was noticed in the park this week, who were on their way to Ontario from British Columbia. Wet roads further east induced them to stay over here for a day or so.

The People of This Community Are All Potential Customers for Local Stores

People prefer to buy at home, where they can see the goods they would like to purchase, but the temptation of a catalogue with its descriptions of goods always attracts their attention.

To offset this there is one forceful medium, and that is by aggressive advertising by the local merchant in his own local paper. It gives him the best medium to keep people in touch with his store and what he has to sell.

Tell the people of Coleman of the goods you have to offer them, and of the service you can tender them by

Boy Globe Circler Crosses Dominion

1. Palle Huld and Halfden Burren drawing lots for the winning ticket. 2. The young traveller photographed on a C.P.R. engine at Montreal.

Travelling light with little more than a toothbrush and a pair of pyjamas, young Palle Huld, fifteen-year-old Danish globe-circler, passed through Montreal over Canadian Pacific lines, on Monday, March 12, having crossed the Atlantic from Greenock, Scotland, on the Canadian Pacific liner S.S. "Montcalm".

On the centenary of Jules Verne's birth, a leading Danish newspaper, the "Politiken", conceived the original idea of sending a representative around the world on the regular travelling schedule of 46 days, so as to make apparent the difference of travel of 1923 and 1928. To that end a new business form was required, and the editor of the newspaper decided that it should be a boy of between 15 and 18 years of age. A full page advertisement appeared—at two o'clock, as appointed, the stairs, offices, and private rooms of the "Politiken" building was swarming with boys

who wanted to go round the world. It was some scene, and it was soon seen that it was not even necessary to get a youth of eighteen years, there were boys of sixteen who would do quite as well, and finally the fifteen-year-old boy proved as capable as the others. A correspondent just returned from China and the revolution there, examined the boys one after the other. They all had a thorough examination, their permission from their parents in their hands they stammered out their wild desire to get the exciting chance—and finally five boys were selected. Out of the five two proved the best. They were Palle Huld and Halfden Burren. They were both equally fitted for the journey, everything justifying their setting off. As no one liked, however, to rob the other of his chance a new idea was hit upon. They must draw lots. A hat was placed on the back of a chair, the lots thrown into it, they put down their hands—Palle Huld looked at the fascinating word: "Going!" He was the lucky one.

Who is he, then? A plucky young fellow with a boyish, dark blue flash in his eyes, red fascinating hair, blond as a Northern Viking and yet a slim schoolboy, 15 years old. He is not a bit afraid. He got permission from his manager to leave the business, where he is an apprentice, for two months, and after the lucky result, rushed to his mother: "Mother, do you know, I am to go round the world!"

He left Copenhagen on Thursday, the first of March, and he expected to be back, as he has promised, in 46 days.

Palle Huld sailed from Greenock, Scotland, on March 3 on the Canadian Pacific liner S.S. "Montcalm". He reached Montreal on Monday morning, March 12th, and left that evening for Vancouver, where he asked for Yokohama on board the C. P. R. flagship the "Empress of Canada". Arrangements for his further trip to Korea, China, Soviet Russia and back to Copenhagen are in the hands of the Canadian Pacific Railway.

"The Royal York"—Empire's Largest Hotel

Architects' drawing of the New Hotel

The first architects' drawings released by the Canadian Pacific Railway Company in connection with the construction of their proposed new hotel at Toronto, reveal a structure which through a series of varying roof levels, will rise to a height of 28 stories above the street level. Containing over 1000 rooms it will be the largest and finest hotel building in the British Empire, taking its place in the front rank with the world's best.

"The Royal York", as the new hotel will be known, is a name chosen

for it by President E. W. Beatty, believing it to be most fitting in that it associates the new structure with the history of Toronto and conforms with the dignity and importance of the building and its splendid appointments. The earliest history of Toronto is encompassed in the word "York". About the year 1791 the new province of Upper Canada was duly constituted, and its capital was started in its career as "a very English town" by that sturdy Briton, John Graves Simcoe. He bestowed upon it the name of York, establishing

there as close a copy of British political institutions as he could contrive.

The location of the new hotel is notable in that it is directly across from the new Toronto Union Station, one of the largest railway terminals in America, and which will be opened shortly. The building will extend 350 feet along the north side of Front street, which is unusually wide at this point and which will result in the hotel being set off to splendid advantage. It will extend on the west to York Street and to Piper Street on the north. On the east is an open space. A wide airy and well-lit subway will extend under Front street into the new Union Station.

Some idea of the facilities of this new hotel can be gained by the fact that on the two floors above the lobby and first mezzanine, it will be possible to accommodate conventions of six and seven thousand people. One of these floors will be one of the most notable in America. Around a central foyer will be arranged a ballroom, convention hall and banquet room. These halls will be of unusual height and size, being overlooked by balconies opening out on another mezzanine floor.

The roof garden at the top of the tower will be far in advance of anything that has yet been attempted in Canada along that line. On three sides it will be glass covered, thus affording an uninterrupted view across the lake and the city. Here meals will be served. Above it will be another mezzanine floor containing additional facilities for serving and entertainment.

Detail plans for finishing and decoration have not yet been completed, but considerable personal attention to such is being given by Mr. Beatty and the Company's directors. The result will be a building that, besides being an ornament to the city of Toronto in every respect, worthy of that city's importance and assured growth, will be the largest hotel structure in the Empire. In construction and furnishing the new hotel will, as far as possible, be all-Canadian.

Common Sense in Collections

(Cardston News)

The bogey of business is bad debts. While it is true that "Credit" is the greatest force in modern business, and all business is built upon it, i.e., upon the word and honor of the men responsible for that business, yet the greatest single cause of business failures is the practice of giving "credit" to purchasers of goods or commodities.

Many persons totally disregard the obligation of "credit" and even business men sometimes act in a peculiar manner regarding the "credit" they have "let out" to customers. Recently a little bulletin on the subject of "Collections" came to hand which sets forth in a plain way the correct attitude every person should have on this subject. We print part of it below:—

The belief that the practice of permitting a customer to pay when he pleases tends to promote goodwill and increase sales is not born out by experience.

The most successful merchants are those who urge strict compliance with their terms. It seems to be an obsession in their minds, like fear of darkness in the minds of little children, that to ask a delinquent debtor for the money he owes is to incur his enmity, risk the loss of his business, and the probable trade of his friends. Timidity and good business are not akin. A part of the sales transaction is the consideration that payments be made when due. Must you pay tribute in good dollars and cents to keep him from knocking your business because you are dunning him for a settlement of what, by every right, is yours, and should he pay?

Remember that collection that is easy today may be difficult to-morrow and impossible the day after. Don't forget that turnover in accounts is as essential as turnover in sales and the slower your collections are, the slower sales come.

It is a fact that a debtor seldom deals with a merchant to whom he is already indebted, and his account past due, for fear of being turned down, whereas he feels free to approach the merchant with whom his account is in good standing, resulting in the loss of sales you would otherwise get.

For the benefit of all concerned, we urge both merchants and customers to assume this "common sense way of making collections."

In the Army & Navy Veterans sweep for the Derby the winner of the first prize was G. B. Grimes, of Los Angeles, Cal., he receiving \$29,352.60; second, Wm. Salter, St. John's, Newfoundland, \$9,784.20; third, Altou Rowland, North Vancouver, \$4,892.10. The nearest one in the Pass to receive a prize was P. McPherson, Blairmore, who drew a non-starter, the amount being \$21.07. The total subscribed in the sweep was \$97,842.00. Sixteen who drew unplaced starters each received \$611.51. There were 841 official entries for this year's race, of which only nineteen went to the post.

Dominion Day at United Church

Dominion Day will be observed at the United Church by a special service on Sunday morning at 11 o'clock. The church school and the congregation will meet together. A special order of service is being used. This is in the form of a very attractive leaflet and entitled "The Land of Many Waters."

This occasion always attracts a crowded congregation. The public generally are invited to be present. There will be no ten o'clock school.

Staff Captain Merritt, divisional commander of the Salvation Army, was a visitor to Coleman corps on Monday.

WORLD HAPPENINGS
BRIEFLY TOLD

By an order-in-council the Saskatchewan Gasoline Act, 1928, has been amended to exempt all railway companies operating in Saskatchewan from payment of the tax.

Last year 63,000 British subjects from the United Kingdom were helped by the Government to settle overseas, states the "Oversea Settler."

Negotiations for trade treaties with several foreign countries, including Newfoundland, will be entered by the Canadian Government during the present year.

Dr. Otto Hamman, long a figure in German political life and chief of the press bureau of the foreign office from 1894 to 1915, is dead at the age of 76.

The equal franchise bill, giving women the vote at the age of 21 under the same terms as men, passed its third reading in the House of Lords, without discussion.

More bees, more parsnips, more oats, more flax and more wheat are produced annually at the Saskatchewan prison in Prince Albert than in any other penitentiary in Canada.

At Philadelphia the seaplane No. 12, carrying a useful load of 2,000 kilograms (approximately 4,400 pounds) broke the world's altitude record by ascending more than 12,000 feet.

A new five-cent air mail postage rate, to be effective August 1st, was announced by Postmaster-General New, of the United States. A five-cent air mail stamp has been authorized.

Dr. Fridtjof Nansen, famous Arctic explorer, told the International Congress of Aerial Arctic exploration that in 1929 he intends to make an extended polar flight in a dirigible airship. He said this ship was now being constructed in Germany.

Put Trout in Mountain Lake

Experiment in Fish Culture is Done Successfully in Jasper Park

After a journey of at least two thousand miles the largest group of United States immigrants that ever settled in Canada has established its home in Jasper National Park.

During the week-end 200,000 Brook trout fingerlings, all the way from Creco, Pennsylvania, were placed in the water of Maligne Lake. They came to Canada last winter as eggs and for months they have been carefully nursed in a hatchery especially constructed for them.

Herbert Davis, one of the park wardens whose charge they were, watched them grow from eggs to fish, kept the coil water running at the proper temperature, and when they were big enough to eat fed them chopped liver. They were brought from Pennsylvania to Jasper by Canadian National Express, and were transferred to Maligne Lake by pack horse, wagon and automobile.

There was no difficulty, in these last 35 miles to keep the tins in which they floated constantly moving, and they made the journey without mishap. The water of the lake was tested before they were lowered into it, and they showed themselves acclimatized immediately. Oliver Bright of the Dominion Hatchery at Fort Qu'Appelle, superintended operations and Ward Davis kept watch over his pets until he saw them safe in their new home.

The stocking of Maligne Lake with trout is one of the experiments being made in glacial waters by the Dominion Government.

Reason For Expansion

With Canadians eating on the average, 80 pounds of pork per capita per year, 75 pounds of beef but only 10 pounds of lamb and mutton, there would seem every reason for expansion in the last named meat, according to a statement issued by the Canadian Co-operative Wool Growers' Association.

Speeding Up Mail Service

Letters From British Isles Delivered From One To Four Days Earlier

Letter mail from the British Isles and Europe will be brought from one to four days quicker to Canada through the Canadian Air Mail Service, recently inaugurated.

The Canadian Post Office Department, following successful experiments made last year, has entered into contracts for the conveyance of mail by air, to and from trans-Atlantic steamers. Incoming steamers are met at Rimouski on the River St. Lawrence and the mail is taken off and despatched by airplane to Montreal, Ottawa and Toronto. Mails for western points are carried in the plane to Toronto and from there sent on by train.

The advance in delivery is from twenty-four to seventy-two hours, depending on the time of arrival of the steamer, train connections, etc.

On outgoing steamers a supplementary despatch is given to business correspondence by direct air service from Toronto, Ottawa, Montreal to Rimouski, where this mail is placed on a steamer sailing from Montreal or Quebec several hours previously. In this way a supplementary despatch is given to letters which would otherwise have had to wait the next outgoing steamer sailing perhaps three or four days later.

Although the Air Mail Service as at present operating is primarily intended to speed up the transmission of European mail, advantage is taken of the existing service to carry specially marked inter-city mail between Ottawa, Montreal and Toronto. No extra postage is charged on letters carried by the air mail.

For the French section, prizes were awarded respectively to Adjutor Savard, La Patrie, Montreal, P.Q.; J. M. Estival, La Solle, Quebec, P.Q.; and to Charles Gaultier, Le Droit, Ottawa, Ontario.

The judges for the English section formed into an adjudicating committee headed by Dr. James V. Robertson, chairman of the Central Council of the Canadian Red Cross Society; Dr. Lorne Pierce, Editor, the Ryerson Press, Toronto; J. F. B. Liversay, general manager, Canadian Press, Toronto; J. M. Elson, Canadian Authors' Association, Toronto; Professor G. M. Wrong, History Dept., University of Toronto.

For the French section the adjudicators were: Mr. Leon Lorraine, of the Commercial High School, Montreal; Mr. Robert Choquette, professor of the University of Montreal, and Dr. Victor Morin, past president of the Canadian Authors' Association.

The contest was entered by sixty-one papers, but dozens more contributed editorials without actually entering the contest. Several million readers were thereby informed that it was Henri Dunant who actually originated the idea of Red Cross for the world, whereas, formerly, only a vague idea that Florence Nightingale had done so, existed in many people's minds. Florence Nightingale, however, was public acknowledged by Dunant in a speech in London in 1872, as having been his inspiration.

Winnipeg Newspaper Union

Red Cross Editorial Contest

Congratulations Are Extended To the Winners in Both Daily and Weekly Sections

Congratulations are now being widely offered all over Canada to those who have won prizes in the recent editorial contest inaugurated by the Canadian Red Cross Society, for the best editorials published in the daily and weekly press of the Dominion, to celebrate the centenary of Henri Dunant and the founding of Red Cross for the world.

Prizes have been awarded to: Robert Henderson, of the St. Thomas Times-Journal, St. Thomas, Ontario, for the best editorial published in any daily paper, while Miss May Stuart Clendenen, of the Farmers' Advocate, London, Ontario, took the leading place in the weekly paper section in English. The other bright and clever people who won honors and prizes were: Second for daily, H. D. Christie, The Expressor, Brantford, Ontario. Third, Miss Kenneth M. Haig, Manitoba Free Press, Winnipeg, Manitoba. It is worthy of note that Miss Clendenen is the present president of the Canadian Women's Press Club, while Miss Haig is a past president.

Prizes for the weekly papers in English, second, C. J. Allison, The Asquith Record, Asquith, Saskatchewan; Third, C. W. Peterson, The Farm and Ranch Review, Calgary, Alberta.

For the French section, prizes were awarded respectively to Adjutor Savard, La Patrie, Montreal, P.Q.; J. M. Estival, La Solle, Quebec, P.Q.; and to Charles Gaultier, Le Droit, Ottawa, Ontario.

The judges for the English section formed into an adjudicating committee headed by Dr. James V. Robertson, chairman of the Central Council of the Canadian Red Cross Society; Dr. Lorne Pierce, Editor, the Ryerson Press, Toronto; J. F. B. Liversay, general manager, Canadian Press, Toronto; J. M. Elson, Canadian Authors' Association, Toronto; Professor G. M. Wrong, History Dept., University of Toronto.

For the French section the adjudicators were: Mr. Leon Lorraine, of the Commercial High School, Montreal; Mr. Robert Choquette, professor of the University of Montreal, and Dr. Victor Morin, past president of the Canadian Authors' Association.

The contest was entered by sixty-one papers, but dozens more contributed editorials without actually entering the contest. Saskatchewan Anti-Tuberculosis League

Provisional League

Movement To Have Free Treatment Of All Patients At The Public Expense

The annual meeting of the Saskatchewan Anti-Tuberculosis League was held at the Saskatorium, Fort Qu'Appelle, on Thursday, June 14th.

In addition to the routine business, Mr. A. B. Cook, the president and managing director, briefly outlined the work of the League to date, and stressed the imperative necessity of extending the activities of the League along preventive lines, such as the examination of known "Contact Cases." He pointed out that at present no funds were available for this work, and that it had been decided, this year to proceed with the sale of Anti-Tuberculosis Christmas Seals.

It was done in the other provinces of the Dominion and in the United States, where funds for both curative and preventive work are largely raised by this means.

Mr. J. J. Lamb, Secretary of the Municipal Health Insurance Association, and Mr. J. G. Knox, of Tuxford, Reeve of the Rural Municipality of Marquis No. 191, were elected to the Board of Directors to serve for a period of three years.

Two resolutions passed at the last Annual Convention of the Saskatchewan Association of Rural Municipalities, dealing with free treatment and examination of school children, were read to the meeting and discussed. In view of the fact that resolutions had also been passed by the United Farmers, Saskatchewan Branch, and by the Independent Order of the Daughters of the Empire, endorsing the principle of free treatment, these resolutions were heartily endorsed by the meeting.

It was resolved that the Legislature be petitioned to amend the Sanatoria Act so that all classes of T.B. patients shall have free treatment available at the public expense. It was further that same be paid: (a) Partly by the Government; (b) Partly by all Urban and Rural Municipalities in the Province.

It was further suggested that the share of responsibility be apportioned as follows: The Government to undertake all capital expenditure required in furnishing the necessary sanatoria with their equipment, and also contribute toward the expense of care and treatment of \$1000 per hospital day, and the balance of care and treatment cost to be paid semi-annually by all municipalities of our province on an equitable basis. Also that the Convention request the Provincial Government to enact legislation making it compulsory that all children of school age be examined for the diagnosis of tuberculosis, and that subsequent to the first examination, examinations be held under the direction of the Department of Public Health.

It was further suggested that the share of responsibility be apportioned as follows: The Government to undertake all capital expenditure required in furnishing the necessary sanatoria with their equipment, and also contribute toward the expense of care and treatment of \$1000 per hospital day, and the balance of care and treatment cost to be paid semi-annually by all municipalities of our province on an equitable basis. Also that the Convention request the Provincial Government to enact legislation making it compulsory that all children of school age be examined for the diagnosis of tuberculosis, and that subsequent to the first examination, examinations be held under the direction of the Department of Public Health.

Reduce the Acid

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour.

Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

CHAPTER XXVI.—Continued.

When they were in the car, Maude finished the conversation, "I'm glad you feel well, but don't fuss her up by taking her out. They get to know too much. Now Mrs. Bell when she spoke to me said I would have to get some one to wash; Helmi would be able to do the washing, but she was hanging out of the clothes, on account of nursing her baby—she might catch cold. But Bob, she does it and washes beautifully. I just kept quiet. So we're saving two dollars a week there. Now, how's that? Am I a good wife for a poor man? I'll say I am. Those foreign girls are strong as horses. Well, she's good to the baby, anyway, but don't spoil her, for Heaven's sake. The more you do for people the more they expect—take it from me!"

To which Mr. Herriott replied: "I bet she'd like a ride, though; she's only a kid. She's younger than you are, and I think she looks pretty pale and tired sometimes."

"Look here," said his plump little wife, asserting her dignity. "Who is running the house?"

And when she said it she looked so utterly sweet and plump and pink and white, so much like a spoiled but very pretty child, that her husband kissed her and forgot all about Helmi.

Helmi had a friend in the broad room, who gave her snatches of news from the outside world. The soldiers from out at the Exhibition Grounds were going away soon. They would go direct to England, to Salisbury

will do for Lili, so cut out all the fireworks and get them ready."

Pump and pink and white, with a baby smile, was Maude Herriott, the petted child and wife, but her husband was as cruel as any toothless old crone.

Both mothers rode in the ambulance to the hospital, and, strangely enough it was Mrs. Herriott who came hysterical when the nurse took her baby from her.

The brown-eyed nurse who had received Lili read the misery in Helmi's white face, and patted her shoulder kindly. "I do not think your baby will have it very hard—she is a lovely little thing and looks quite strong. Don't worry her, because we have splendid success with our babies here. She will have every care. I promise you. No, she will not fret much."

Helmi kissed her hand with a rap like her eyes, but she could not speak. Her heart would have broken when she saw Lili carried into the fever ward—away from her, with a door shut between them, if the kindly touch of the nurse's hand had not been on her shoulder. The bed was warm, human and strong, and its touch went with her when she went down the dark stairs to the ambulance which waited at the door.

Mrs. Herriott was weeping violently, but Helmi sat tight-lipped and pale, but tearless. The red cross on the frosted glass of the ambulance door, held her eyes with gruesome fascination; to her excited imagination it seemed as if they were painted with blood.

When returning they were stopped at First Street by the closing of the black and white gates, for the afternoon train was going out—a special, carrying the soldiers. The station platform swarmed with people, and a band blared its music. Helmi hated the sound of it. How could any band play when there was so much trouble in the world and her Lili so sick? Once when she was a child at home she had drawn her hand across the plastered wall, and some of the plaster had caught her finger, making her sick with a horrible sense. The band music brought the feeling back to her again.

There were flags on the train, hanging out of the windows, waving like little red wounded things, licking at the side of the car with red tongues. Helmi shivered as she watched them. From the window of the ambulance she could see the swarming crowd, but she could not from her view the farewell scenes.

As the train moved slowly out, Helmi could see the faces gliding past her. Most of the soldiers were at the windows on the side of the station platform, waving to friends. Just as the last car went by, gathering up speed now, one man sat moodily looking out of the north window with eyes that saw nothing. Helmi knew where she sat in the ambulance was not more than six feet from him as he passed. When his face came into view, she beat upon the glass like a mad thing, screaming: "Jack! Jack!"

He looked at her. But though she saw him so plainly, he did not see her, and the train went on its way. Helmi's voice, like the sobbing of many others, was lost in the blare of the bands.

Three-In-One Machine

Tourists of the future will be able to use the same conveyance for travel by land, water or air. A British car, recently exhibited, proves successful. It is a combination automobile, motorboat and aeroplane, with wings that fold back, tail fin, rudder and two propellers. A sheltered cabin holds several passengers and little time is needed to change the vehicle for different modes of travel.

Of course the fittest survive, as Darwin said. We're all here, aren't we?

"HELPED ME WONDERFULLY"

Woman Strengthened by Taking Lydia E. Pinkham's Vegetable Compound

Port Colborne, Ont.—"After having an operation, I was very miserable—very nervous and very near to work, I saw Lydia E. Pinkham's Vegetable Compound advertised and tried it and believe it helped me wonderfully. I feel as if I have let me and my nervousness much better. I feel as if I have let me and my nervousness much better. I feel as if I have let me and my nervousness much better."

In saying Lydia E. Pinkham's medicine has helped me wonderfully. I feel as if I have let me and my nervousness much better. I feel as if I have let me and my nervousness much better. I feel as if I have let me and my nervousness much better."

When Capt. Malcolm Campbell completed his world's record automobile drive at Daytona Beach, his first request was for a cup of good, strong tea. "The courageous Captain would have enjoyed Red Rose Tea because it is a blend of choicest Assam and Ceylon teas, whose characteristics above all others are strength and flavor, packed by men trained in the London tea market. Sold by your grocer in clean, bright aluminum packages."

Dog Discovers Valuable Mine

Strange Incidents Recalled in Connection With Mineral Discoveries

One of the richest copper strikes on Vancouver Island was made by a dog, according to Harry Tanner, well-known mining man, who has returned from a prospecting trip.

Tanner's dog was a companion on one of his trips and sought to rival his master in the discovery of "float." One day on the West coast of Vancouver Island, Tanner heard his dog barking persistently and went to see what it was all about. To his astonishment he found the dog scratching around rich veins of copper ore, which development proved to be one of the richest strikes on the island.

The story of the donkey which discovered the famous Bunker Hill and Quincy mines in the Coeur d'Alene, Idaho district, has often been told. That donkey was pensioned for life as its reward. Several mineral discoveries have been made as the result of float found on the dumps and in the streets of the cities. For Catarrh.—It is one of the chief recommendations of Dr. Thomas' Catarrh Remedy, that it can be used internally with as much success as it can outwardly. Sufferers from catarrh of the bladder, urethra and according to directions will get prompt relief. Many sufferers from Catarrh have found relief in the Oil and have sent testimonials.

The Unseen World

Many Things in Air Which Mean Nothing To Us

"A learned professor tells us," says a writer in The Outline, "that sounds that not even a child's ear can detect, but which run into the water of an aquarium, will stun and kill small fish. An earthworm can hear well below the soil the tread of a thrush above, and so keep out of harm's way. You may see a slug in a pantry bed, but can you hear it munching away as it makes a meal? There is a quiver in the air that means nothing to us, but has a message for the insect or the bird. Since the beginning of time electrons have rushed through the ether at the speed of 185,000 miles a second, but we never knew of their existence until ten years ago, when wireless telegraphy revealed it. What more remains in a world unknown to human senses?"

Unless worms be expelled from the system no child can be healthy. Mother Graves' Worm Expeller is an excellent medicine to destroy worms.

Less Law and Best Judges

In Britain, the secret of judicial efficiency is the fact that the courts are humanized; in United States, the secret of frequent judicial inefficiency is the fact that the courts have been mechanized. Britain has the minimum of law and the maximum of judicial sense. United States has the maximum of law and very often the minimum of judicial sense. In Canada, we want humanized courts, not mechanized ones. We want less law and the best judges.

Makes First Appearance

For the first time in Europe a standardized newspaper recently supplied its readers with a rotogravure section in color. The section of four pages being issued by the Paris Herald, European edition of the New York Herald Tribune. By coincidence, it is almost thirty years ago since the Paris Herald introduced the first linotype machine used in France.

A reliable antiseptic—N'san's.

Teeth and Health

Issued By The Canadian Dental Association and Published By The Saskatchewan Dental Society

GREENSTAIN

You are anxious that your child should have nice white teeth, and you are endeavoring to get him to form the habit of daily care with perhaps good success.

But you notice a dark greenish stain on his teeth right next to the gum, and you are distressed in spite of careful brushing.

This, then, is "greenstain," and is commonly found both in the temporary and permanent teeth of children, being generally confined to the interior upper teeth, well up towards the gums.

The greenish color is due to bacteria present which find lodgment in those areas afforded by the remnant of a dead cuticle which often persists after the eruption of the tooth.

Where "greenstain" is permitted to remain for a considerable time upon these surfaces, the enamel will be found to be "etched" or roughened by dissolution due to an acid which these bacteria produce. Unfortunately, this injury to the tooth substance is permanent.

Now, you can readily understand that these roughened areas will hold food particles and epithelial matter such as are found in a mouth where brushing is neglected—and with result.

The removal of greenstain had better be left to your dentist, who, by these surfaces, the enamel will be found to be "etched" or roughened by dissolution due to an acid which these bacteria produce. Unfortunately, this injury to the tooth substance is permanent.

Now, you can readily understand that these roughened areas will hold food particles and epithelial matter such as are found in a mouth where brushing is neglected—and with result.

The removal of greenstain had better be left to your dentist, who, by these surfaces, the enamel will be found to be "etched" or roughened by dissolution due to an acid which these bacteria produce. Unfortunately, this injury to the tooth substance is permanent.

Now, you can readily understand that these roughened areas will hold food particles and epithelial matter such as are found in a mouth where brushing is neglected—and with result.

More Deadly Than Disease

Motor Cars Kill Thousands Of Children in New York

Nearly 2,000 children under 15 years of age have been killed by motor cars on the streets of New York during the last five years, according to figures made public by the health department. Three times as many boys as girls were victims.

Health Commissioner Harris said that in this city deaths caused by automobiles are more numerous than those due to diphtheria, scarlet fever, and typhoid combined.

GREAT HELP TO YOUNG MOTHERS

Baby's Own Tablets Have Many Uses and Are Absolutely Harmless

To have in the house a simple, harmless remedy for the minor ills of babies and little children is a great boon to young mothers, and this is exactly why Baby's Own Tablets have been sold to more than a hundred thousand households. The Tablets regulate the stomach and bowels, break up colic and simple flatulency, allay the crying of teething teeth, yet they have no drug taste and the children like them.

Baby's Own Tablets are sold by all medicine dealers or by mail at 25¢ a box from The Dr. Williams' Medicine Co., Brockville, Ont.

An Obvious Fact

It must be obvious to anyone familiar with agriculture that the farmer who is lacking in energy, enterprise, judgment and courage will rarely extract more than a fair living from the soil, says a commentator in Farm and Fireside.

Time Has Tested It—Dr. Thomas' Electric Oil Has Been on the market upwards of fifty years and in that time it has proved a blessing to thousands. It is in high favor throughout Canada and its excellence has carried its fame beyond the seas. If it were double the price it would be a cheap liniment.

Counsel (severely): Please remember that you are on oath. You understand the nature of an oath. do you not?

Girl Witness (brightly): "Profane, isn't it?"

Athletes.

For sprained ligaments, bound muscles, kicks and bruises — use Minard's.

Minard's Liniment for insect bites.

Distributing Pheasant Eggs

The Calgary Fish and Game Association is distributing 2,400 pheasant eggs throughout the province with instructions to recipients on how to handle them, so as to avoid any loss of chicks.

The Handsome Conductor—You'll have to transfer at Regina.

The Pretty Passenger—"What time does this train reach Belvedere?"

Full use of only five per cent of the heat generated in their boilers.

How Much Water Should Baby Get?

A Famous Authority's Rule

By Ruth Brittain

Baby specialists agree nowadays that during the first six months, babies must have three ounces of fluid per pound of body weight daily. An eight-pound baby, for instance, needs twenty-four ounces of fluid. Later on the rule is two ounces of fluid per pound of body weight. The amount of fluid absorbed by a breast fed baby is best determined by weighing him before and after feeding for the whole day; and it is easily calculated for the bottle fed one. Then make up any deficiency with water.

Giving baby sufficient water often relieves his feverish, crying, upset and restless spells. If it doesn't, give him a few drops of Fletcher's Castoria. For these and other ills of babies and children such as colic, cholera, diarrhea, gas on stomach and bowels, constipation, sour stomach, loss of sleep, underweight, etc., leading physicians say there's nothing so effective. It is purely vegetable—the recipe is on the wrapper—and millions of mothers have depended on it in over thirty years of ever increasing use. It regulates baby's bowels, makes him sleep and eat right, enables him to get full nourishment from his food, so he increases in weight as he should. With each package you get a book on Motherhood worth its weight in gold.

Just a word of caution. Look for the signature of Chas. H. Fletcher on the package so you'll be sure to get the genuine. The forty-cent bottles contain thirty-five doses.

Personal and Local

Mr. and Mrs. T. Parry are spending their vacation in Calgary.

Mrs. Robert Holmes left on Saturday last for a two weeks visit with friends at Trail, B. C.

Robert Lloyd received word recently of the death of his five-year-old daughter, which occurred last month in England.

Mr. Jas. A. Nowell, president of McGillivray Creek Coal & Coke Co. Ltd., is a business visitor here today.

Departures on Sunday evening for the United Kingdom will be Mrs. Boulton and Master Foss, Mrs. Yates and daughter Ella, and Mrs. G. Kellock, Agnes and Jim.

Mrs. D. A. MacKinnon of Kimberley, B. C., motored down on Saturday last, and spent a few days renewing old acquaintances here.

H. C. McBurney has been confined to his home for several days. He underwent an operation for the extraction of several teeth, which was very painful.

June has been a month for showers and rainstorms above the average. The agricultural districts have benefited greatly so that crop conditions are regarded as very good.

William Ralph Kennison of Bakersville, Cal., and Miss Gladys Johnson of Kirskeville, Miss., were married at the United Church mansion on June 16th. The young couple were en route for Spokane.

Sister Rollands and Sister Elford, of the Midnapore Home, were here recently canvassing for subscriptions, and wish to thank all who contributed. They made an annual visit to the Pass for this purpose.

Miss Gladys McKay left on Monday evening for her home in Talmagouche, Nova Scotia, to spend the next two months, and on her return will take up teaching in Calgary. She taught in the public school here for four years.

Captain and Mrs. Hind, who for the past year have been stationed here, are being transferred to the Lacombe Corps of the Salvation Army, and their places here are being taken by Captain Donnelly, of Calgary No. 2 Corps, and a lieutenant newly commissioned from Winnipeg training garrison.

Mrs. T. B. Smith left this morning for Winnipeg where she will join a friend, and they will proceed to Quebec to embark on July 4 on the C. P. R. liner Montclair for a cruise to the British Isles and the Continent, including Germany, Holland, France and Italy. The duration of the cruise from Quebec till the ship returns is 46 days, and ample time is given to visit historic places in the countries visited. Mrs. Smith will make a stay with friends in Edinburgh, and expects to return to Coleman early in Sept.

Prospector Looking Over Property

E. W. Butta, of Priest River, Idaho, with Chas. Webb, of Seattle, and the latter's son, arrived here on Sunday, Mr. Webb went on to Edmonton, while Mr. Butta and Mr. Webb Jr. are spending some time at the prospect, about six miles back of Saskatoon hill. They made their first trip in on Monday packing their supplies, and it is probable they will remain here till some time in July. Mr. Butta some years ago made a survey for a railway line to connect with the C. P. R., which at no point has more than a two per cent. grade, and necessitating about thirteen miles of track to connect the property with the main line.

Junior First Aid Contest Blairmore, Mon., July 2

(8) Eight teams will compete, comprised of the following:
2 Boys' Teams, Class A.
3 Boys' Teams, Class B.
3 Girls' Teams.

Four are from Coleman, three from Blairmore and one from Bellevue.

The two teams and their leaders of Class A must be at the platform at 9.45 a.m. to draw lots for their order of competing, the first team will then commence promptly at 10 a.m.

The three teams of girls and the three teams of boys (Class B) and their leaders must be at the platform at 12.45 p.m. to draw lots for their order of competing.

The girls will draw lots for first, second and third places, the boys will draw lots for fourth, fifth and sixth places.

The first team of girls will commence promptly at 1.00 p.m.

The platform will be located some 250 feet south-east of the skating rink.

If it is unsuitable to hold the contest outside, in case of inclement weather, arrangements will be made to hold the contest indoors.

After the draw has taken place for Class A, No 2 Team will be under the charge of a member of the committee and will remain in one of the tents or a room until No. 1 Team has completed its platform problems.

The same proceedings will follow after lunch, when the draw takes place for the girls and boys, Class B. The girls drawing No. 2 and No. 3 places will be under the charge of a lady member of the committee until their time of competing on the platform. The boys, Class B, drawing Nos. 4, 5 and 6 places will be under the charge of a member of the committee until their time of competing and will remain in a suitable tent or room.

Band Concert Sunday in the Opera House.

On Sunday evening at 8.30, the Coleman Town Band will give a concert in the opera house and the public is urged to attend. The first pieces to be played in the competition at Calgary exhibition will be given, besides other selections, and some fine singers have consented to contribute to the program. A silver collection will be taken to help defray the expenses of the band on their trip to Calgary. The band is deserving of generous support.

Fast Trip From Wales

Mr. Jesse Griffiths, brother of Mr. Griffiths, Sixth street, arrived yesterday morning from Cardiff, Wales, having left Liverpool by the Cunard liner "Lettitia" on June 16, calling at Belfast, completing the ocean trip in seven days, and the entire distance to Coleman in 10 1/2 days, his only stop of any length en route being an hour and a half in Winnipeg. This is as fast as the mails are conveyed to Western Canada. He reports a very enjoyable passage, and was pleased to meet his brother, they not having seen each other for a considerable time.

DIAMONDS

A good Diamond has never been a poor investment; it becomes more valuable with the passing years. For weddings, birthdays, anniversaries, betrothals and other occasions the gift should be a worthy one. Genuine, useful and beautiful. It should be something that will carry a lasting, if not a life-long remembrance. Diamonds will do this. Any selection made here will be new and modish in pattern, dependable in quality and true to our representation.
